COURSE EVALUATIONS

SEMESTER	FALL 2016	PROFESSOR	AMANDA MURDIE
COURSE	INTL 4410	CALL NUMBER	31033
# OF STUDENTS	39	COURSE ID #	32

She does well explaining the material so that everyone can understand it. The use of videos also allows us to view the material through different medias in order to better understand it.

-takes too many opinions, takes too much class time

-too many citation requirements on tests

If you know it, who cares (on timed tests) where it comes from.

-WE DON'T KNOW STATISTICAL STUFF, SPIA DOES NOT REQUIRE

Did not like the emphasis on empirical, quantitative analysis and research design. There was little to no discussion relating to policy, as is characteristic of SPIA. Made terrorism boring. Disappointment.

Dr. Murdie is very experienced; she covers a lot of key literature, and does a great job of educating us on the study of terrorism without overloading students with assignments/readings

One of the best classes and instructors at UGA. Well organized, knowledgeable, and excellent at generating interest and facilitating discussion.

I feel the instructions for the course essay could have been more clear or articulate in what specifically was the goal of the paper

Loved this class! One of my favorites. Dr. Murdie is so interesting, fun, & helpful. Only problem was data project-maybe have one class teaching how to read data first. But thought assignment was important.

I'm so glad I had the opportunity to take this class as Murdie's first semester at UGA. She is so knowledgeable about terrorism and just political science in general.

The instructor is extremely knowledgeable about the course and each class included discussion & participation. Workload was reasonable though there was a large volume of reading.

Good, but did not like the need to cite the sources for info written on tests. Why does it matter where the info came from as long as you know the info? It made studying for tests more difficult.

Dr. Murdie is a great professor. She is knowledgeable about the topic and willing to help with things both related and unrelated to the course.

Loved the class-material was interesting, lectures were engaging, great inclusion of discussion/case studies, expectations very clear.

Dr. Murdie's organizational skills and lectures ability were great. I enjoyed class readings & felt this class challenged me.

very knowledgeable & manages to tie in random comments & questions by the students into the material.

The course was organized well and really interesting. Sometimes the pace was a little to fast, but otherwise it was easy to learn.

This has been one of my fav classes taken here. She was engaging with realistic expectations. The information was presented well.

Always helpful to provide greater understanding of the topic to students

Seriously my favorite professor at SPIA. My only suggestion would be the inclusion of a multiple choice section on the exams.

I really enjoyed professor Murdie. However, I do think that the reading load was far too intense.

One of my favorite courses I've taken. Dr. Murdie is fantastic!

good job

Glad I took the course.

Very organized ♥

I loved this class and learned so much. I especially loved how you emphasized research and helped me better understand the importance of it.
